APATEQ continues produced water treatment demonstration program

02 June 2015

The next demonstration will take place in Spring, Texas from June 15 – 18, 2015

Last year Luxembourg-based, APATEQ, started an on-demand, on-site produced water treatment program with its proprietary oil-water separation technology in North America.

After successful demonstrations in Pratt / KS and Spring / TX, the road show continues with a four days lasting demonstration at the premises of APATEQ's cooperation partner in the USA, the company Radial Drilling in Spring, Texas, starting on June 15.

The APATEQ program is open to new participants, interested parties may communicate their participation by mail at producedwater@apateq.com.
