## APATEQ opens subsidiary in the United States

- **Water and wastewater specialist APATEQ has opened a subsidiary in the area of Houston Texas.**
- **The new company will serve the North American market, mainly with APATEQ's innovative one-stop solutions for the treatment of fracking flowback and produced water.**

APATEQ announces the opening of its first subsidiary in the United States. The company, which is situated in Spring TX, in the north of Houston, will focus on promoting and offering one-stop solutions and support services for the innovative treatment of fracking flowback and produced water directly to the US market. The new subsidiary will be responsible for all go-to-market activities around APATEQ solutions in North America and will act as a hub for all North American cooperation partners of APATEQ.

"In terms of international expansion, the United States are the number one strategic market for us", said APATEQ CEO Bogdan Serban. "Whether in attracting new customers or offering support to our

existing clientele, our goal is to provide users of our systems with a cost-effective, best-value solution and to offer a fast response service. To achieve this we need to be as close as possible to the market. So setting up a subsidiary in the United States was an undeniable milestone, also in view of our ambitious growth targets."

Engineering and manufacturing of the APATEQ systems for the North American market takes place in Europe at the company's headquarters in Luxembourg according to highest quality standards. The first plant for the US market has been shipped recently and it will treat produced water for a water service provider to the oil and gas industry.

### About APATEQ

APATEQ PWT S.A. develops and manufactures turnkey, custom designed fracking flowback and produced water treatment systems for oil and gas pad operators, compact wastewater treatment plants for demanding applications and full solution systems for the treatment of industrial wastewater. With decades of experience in the water and wastewater business and global industrial product manufacturing and commercialization, APATEQ's corporate and technical team is comprised of dedicated experts whose focused goal is client satisfaction, environmental protection and water conservation. APATEQ is, among others, winner of the Frost Sullivan Best Practices Award and the Red Herring Global 100 Award.
